

METRO II

Metro II is a sister product of one of Jamie Stern's most handsome leather articles, Metro. This new take on an all-time classic boasts the same endearing aesthetic and performance characteristics while adding in-stock availability. The leather's tight, naturalistic grain is accentuated by an elegant hand-wiped finish to create a subtle two-tone effect that provides a greater sense of tactility and depth.

The eight new colors of Metro II are all widely applicable neutrals and earth tones intended to work seamlessly in any environment or space. Timeless selections like Mossy Oak, Hazel Wood and Pale Smoke work harmoniously with the leather's grain and gentle mottling to create a beautifully versatile leather that bridges the gap between visual splendor and lasting practicality.
